

OVERVIEW

Our Toilet Room Accessories library contains all the commonly requested toilet room accessories and toilet room partitions. Unlike manufacturer families, these are simple yet flexible so they can represent products from any manufacturer. We have built in parameters for width, height, depth, and mounting height. Several families include surface mount, recessed, and semi-recessed types, and provide adjustable recess depth. We have built this library with **Non-Hosted** families so you can freely place them and don't have to worry about them disappearing if someone deletes a wall. The key features are:

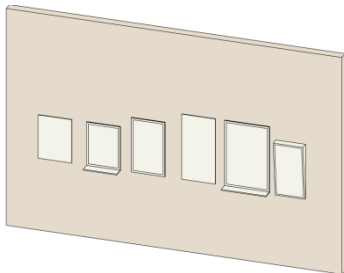

Simplified Plan & Elevation Graphics

Basic representations show just what you need. Recessed items indicate depth in wall to help with coordination. Snap dimensions to any edge or to centerline in both plan and elevation.
