OVERVIEW

The Titleblocks that are provided with Revit are very basic and don't cover all the variations you need. Creating your own takes hours, so we built some better starter Titleblocks to help you get started quickly. The library includes

- ☐ Construction Documents, SK sheets, Cover Sheets, Presentation, & Blank
- ☐ Paper sizes 8-1/2"x11 to 36 x48
- ☐ Horizontal and Vertical Orientations for 8-1/2x11 and 11x17
- ☐ Background Alignment Grid
- ☐ Notes Areas

Simply add your logo and change your office details and you are off and running.
