

## OVERVIEW

Our window library is a collection of families designed to provide the variety and flexibility which is missing from the default Autodesk Revit libraries. They are designed to be flexible enough to meet your needs and at the same time are easy to use. The key features of the library are as follows:

<p><b><u>SINGLE, DOUBLE, TRIPLE, QUAD &amp; CUSTOM FAMILIES</u></b></p>  <p>Create a wide range of window types with only a handful of fully parametric families. All materials controlled by object styles or within family types.</p>	
<p><b><u>EXTERIOR TRIM OPTIONS</u></b></p>  <p>Adjustable Trim Surrounds, Sills, and Headers</p>	<p><b><u>INTERIOR TRIM OPTIONS</u></b></p>  <p>Adjustable Casings, Sills, and Sill Aprons</p>
<p><b><u>MULLION OPTIONS</u></b></p>  <p>Equally Spaced Verticals, or User Controlled, plus Optional Upper and Lower Horizontals</p>	<p><b><u>DIMENSIONAL OPTIONS</u></b></p>  <p>Parametric Frame and Mullion Dimensions, Window Position Within Wall, and Wall Wraps</p>

## LIBRARY INCLUDES
